

Engineering Sustainability. Delivering Impact.

West Africa's Trusted Partner for
Integrated Environmental & Energy
Solutions Since 2000

One Partner. Multiple Solutions. Zero Compromise.

Odun Environmental Limited (OEL) is a leading integrated environmental, engineering, and energy solutions provider headquartered in Lagos, Nigeria, with operational reach across West Africa and strategic partnerships in Europe and Asia. Since our establishment in 2000, we have evolved from a specialist environmental consultancy into a full-service sustainability partner—bridging the gap between industrial operational needs and global sustainable development goals.

Whether you need Environmental consultancy services, Environmental studies or assessments, clean oil storage infrastructure, manage complex waste streams, comply with evolving ESG regulations, or transition to clean energy—Odun delivers integrated, compliant, and cost-effective solutions.

With over 400 successfully executed onshore and offshore projects to date, we continue to deliver exceptional results to a wide array of satisfied clients with a 100% success rate.

Today, we deliver high-impact solutions across eight integrated service verticals:

Our Mission

To enable industrial and commercial clients to operate safely, comply with evolving regulations, reduce environmental footprint, and transition to sustainable energy — through technically excellent, locally executed, and globally aligned solutions.

Our Vision

To be West Africa's most trusted integrated environmental and energy solutions partner — driving measurable impact for clients, communities, and the planet.

Our Journey & Global Reach

Our Reach

400+ Projects Delivered	25+ Years Experience	8 Service Verticals	100% Client Success Rate
-----------------------------------	--------------------------------	-------------------------------	------------------------------------

Our Core Values

These five principles guide every decision, project, and partnership at Odun Environmental.

INTEGRITY

Transparent, ethical, and accountable operations

We believe trust is earned through honesty. Our clients rely on us for unbiased advice, accurate data, and unwavering commitment to regulatory and ethical standards.

EXCELLENCE

Technical precision and continuous improvement

From our ISO-certified processes to our accredited laboratory, we pursue the highest standards in everything we do—because your success depends on our quality.

SUSTAINABILITY

Environmental stewardship and social responsibility

We don't just advise on sustainability—we live it. Our solutions are designed to protect ecosystems, empower communities, and advance the UN Sustainable Development Goals.

INNOVATION

Technology adoption and adaptive problem-solving

We leverage advanced tools—GIS, air dispersion modeling, robotic cleaning, smart energy systems—to deliver smarter, faster, more cost-effective outcomes.

PARTNERSHIP

Collaborative, client-centric delivery

Your challenges are our challenges. We work alongside you as a true extension of your team—from initial consultation through long-term support.

Integrated Solutions for Complex Challenges

OEL delivers end-to-end services across eight core verticals.

1. ESG Advisory & Sustainability

Future-proofing businesses through credible ESG integration

- ESG strategy, materiality assessments & roadmapping
- | Sustainability reporting GRI, SASB, ISSB, TCFD, CSRD readiness
- | GHG accounting, carbon footprinting & net-zero planning
- | DFI safeguards compliance AfDB, IFC, Equator Principles
- | Supply chain sustainability & human rights due diligence
- | Stakeholder engagement & social license to operate

2. Environmental Consulting

Expert analysis for informed decision-making and regulatory approval

- Environmental Impact Assessment EIA, ESIA & Strategic Environmental Assessment SEA | Environmental, Social, Health & Economic Impact Assessment ESHIA | Baseline Environmental Studies & Post-Project Monitoring | Resettlement Action Plans RAP & Stakeholder Engagement
- | GIS, Remote Sensing & Environmental Mapping | Climate Change & Air Quality Management | Various other Specialized Studies and Assessments

Our Services — continued

3. Tank Cleaning & Industrial Services

Safe, efficient infrastructure maintenance with minimal downtime

- Non-man entry & robotic tank cleaning systems
- Simultaneous cleaning, sludge removal & oil recovery
- Crude oil, fuel oil, chemical & ballast tank cleaning
- Degassing, confined space entry & industrial hydroblasting
- Tank inspection, decommissioning & emergency spill response
- H2S safety management & zero LTI protocols
- Hydroblasting & Industrial Cleaning
- Emergency Spill Response & Containment

4. Integrated Waste Management

From waste to value: compliant, circular, and cost-effective

- Hazardous & non-hazardous waste collection, treatment & disposal
- Industrial wastewater treatment & Zero Liquid Discharge ZLD
- Medical, e-waste & radioactive waste management
- Waste minimization, recycling & waste-to-energy solutions
- Marine, harbour & waterway litter cleanup
- Circular economy consulting & waste auditing

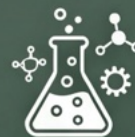

Our Services — continued

5. Renewable Energy Solutions

Clean Reliable Power for Sustainable Growth

- Solar PV design, sales & installation rooftop, ground-mount, hybrid
- Battery Energy Storage BESS 5kWh to 5MWh+
- Wind energy site assessment & turbine integration
- EPC services & long-term O&M support
- Energy audits, efficiency upgrades & microgrid solutions
- Green finance advisory & PPA structuring

6. Laboratory Services

FMEnv, NOSDRA, NESREA-accredited testing for accurate, defensible data

- Water, wastewater, soil, sediment & air quality analysis
- Bio-toxicology & ecotoxicity testing acute, chronic, sub-lethal
- Oil & petroleum product testing & environmental forensics
- Food safety, microbial & nutrient analysis
- Field sampling & mobile laboratory services
- ISO 17025-aligned quality management

7. Pollution Control & Remediation

Preventing, monitoring, and restoring environmental impacts

- Oil spill contingency planning, response & cleanup
- Soil, groundwater & marine remediation
- Contaminated land investigation & site restoration
- Air, noise & odour pollution monitoring & control
- Produced water treatment & marine cleanup
- Environmental compliance monitoring & auditing

8. Safety Studies & Risk Assessment

Protecting people, assets, and operations through proactive safety management

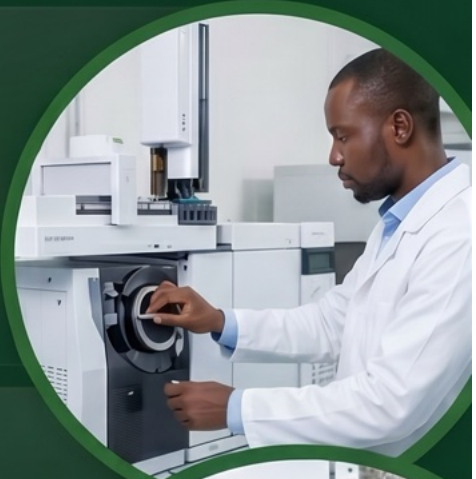

- HAZID, HAZOP, QRA & LOPA studies
- Fire, explosion & toxic gas hazard analysis
- Process safety studies RAM, RBI, RCM
- Safety Integrity Level SIL & ALARP assessment
- HSSE safety case development & asset integrity management
- Occupational health, emergency response & crisis management

Where Science Meets Execution

State-of-the-Art Laboratory

Our FME_{nv}, NOSDRA, NESREA-accredited Environmental & Ecotoxicology Laboratory combines advanced instrumentation with experienced scientists to deliver precise, regulatory-compliant data. Equipped with GC-MS, AAS, UV-Vis spectrophotometry, automated diluter systems, and multi-ecosystem culture facilities, we support environmental, industrial, and regulatory testing across Nigeria and West Africa. 200+ test parameters across water, soil, air, oil, and biological samples.

Technology & Innovation

Environmental Modeling:
AERMOD, CALPUFF, PHAST, SAFETI

Digital Platforms: GIS, remote sensing, drone surveys, SCADA monitoring

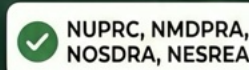

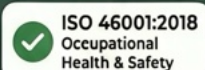

Field Equipment: Robotic tank cleaners, high-pressure jetting, real-time gas/water monitors

Data Management: LIMS, ESG tracking, remote energy performance dashboards

HSE Excellence

Safety is non-negotiable at OEL. Our Integrated Management System aligns with:

- Zero Lost-Time Injury LTI culture on major projects
- Mandatory HSE induction, permit-to-work, and stop-work authority
- 24/7 emergency response readiness with rapid mobilization
- Continuous competency development and certified personnel

Delivering Measurable Results

Water Quality Monitoring & Analysis

Soil Remediation & Restoration

Environmental Laboratory Services

Community Engagement & Consulting

Oil Spill Response & Cleanup

Air Quality Management

Sector Expertise

Industry	Key Services
Oil & Gas	EIA, Remediation, Compliance Monitoring
Power & Utilities	Environmental Audits, Waste Management, Permitting
Manufacturing	Effluent Treatment, Air Quality, EMS
Infrastructure	EIA, Construction Monitoring, Resettlement
Telecommunications	Site Assessment, Waste Management
Mining & Minerals	Mine Closure Planning, Water Management, Rehabilitation
Transportation	EIA, Noise Monitoring, Spill Response

Safety First. Always.

At Odun Environmental, zero harm is not a target—it's a non-negotiable standard. Every project, every field operation, and every client engagement is guided by rigorous health, safety, and environmental protocols designed to protect people, assets, and communities.

OUR SAFETY PHILOSOPHY

A Culture of Prevention, Accountability, and Continuous Improvement

Safety is embedded in our DNA. Whether we're conducting confined space entry for tank cleaning, managing hazardous waste, installing high-voltage BESS systems, or running laboratory analyses, we operate under a unified principle: no task is so urgent that we cannot take the time to do it safely.

CSR — Impact Beyond Compliance

At Odun Environmental, sustainability isn't just what we do—it's who we are. Our CSR initiatives empower communities, protect ecosystems, invest in our people, and advance Nigeria's sustainable development agenda.

OUR CSR PHILOSOPHY

Our approach aligns with the UN Sustainable Development Goals, Nigeria's Energy Transition Plan, and global ESG best practices to create lasting value.

Community Empowerment

Skills development, local content, and inclusive engagement.

Environmental Regeneration

Restoration, conservation, and circular economy initiatives.

Workforce Wellbeing & Inclusion

Safety, equity, continuous learning, and fair labor practices.

Ethical Governance & Transparency

Anti-corruption, data integrity, and accountable reporting.

Key CSR Initiatives:

Youth & Workforce Development

Environmental Restoration

Community Engagement

Ethical Supply Chain

SDG alignment

Why Odun?

✓ **25+ Years of Proven Expertise**

Since 2000, 400+ projects for oil & gas companies, manufacturers, financial institutions, and government agencies.

✓ **Regulatory Mastery, Local & Global**

NESREA, NUPRC, NMDPRA, NOSDRA, FMEEnv. IFC, AfDB, World Bank EHS, UN Guiding Principles. GRI, SASB, ISSB, TCFD, CSRD.

✓ **Accredited Laboratory Excellence**

FMEEnv, NOSDRA, NESREA, NUPRC, NMDPRA accredited lab, 200+ test parameters.

✓ **Local Execution, Global Standards**

Deep Nigerian community knowledge delivering to international quality benchmarks.

✓ **Quality Assurance & Compliance**

ISO 9001 project controls, IFC Performance Standards, AfDB Safeguards, ISO 14001, ISO 45001, ISO 50001.

✓ **End-to-End Integrated Capability**

Full project lifecycle: Assess → Design → Implement → Monitor → Optimize.

✓ **Technology-Driven Delivery**

AERMOD, CALPUFF, ArcGIS, QGIS, GC-MS, HPLC, ICP-MS, robotic tank cleaners, ESG dashboards.

✓ **HSE First**

ISO 9001:2015, ISO 14001:2015, ISO 45001:2018. Zero harm culture, permit-to-work, emergency preparedness.

Trusted Globally. Rooted Locally.

International Technical Network

We collaborate with world-leading specialists to deliver integrated, cutting-edge solutions:

Konfasa Nigeria	STS Tank Cleaning Services Spain	RCY Environmental France
Aquarion Group Germany	Soilutions Limited United Kingdom	Lilleaker Consulting Norway

This global & local network allows OEL to mobilize specialized expertise, technology, and personnel for complex projects anywhere in Africa and beyond.

Regulatory & Professional Accreditations

FME env Registered Consultant	NESREA Accredited Laboratory
NUPRC Oil & Gas Service Provider	NOSDRA Oil Spill Response Contractor
LASEPA Registered Environmental Service Provider	OGEPA Registered Firm
NES Corporate Member	NIPEX Registered Contractor
ISO 9001:2015 Quality Management	ISO 14001:2015 Environmental Management
ISO 45001:2018 OHS Certified	

Compliance Framework

IFC Performance Standards

AIDB Integrated Safeguards

World Bank EHS Guidelines
